The Construction of Tilt-Up

The newest publication from the Tilt-Up Concrete Association is the second in a planned trilogy of resources covering the architecture, engineering and construction of Tilt-Up. Continuing the high quality with which The Architecture of Tilt-Up was printed and assembled, the new (10" x 10") book presents state-of-the art information and large colorful imagery of the construction process.

Topics include: planning, slabs and foundations, panel layout and forming, reinforcement, inserts and embedded items, placing and finishing of the panels, lifting, setting and bracing of the panels, connections and finishing touches.

Published by the

Tilt-Up Concrete Association

Promoting growth and achievement in innovative Tilt-Up design and construction since 1986.
